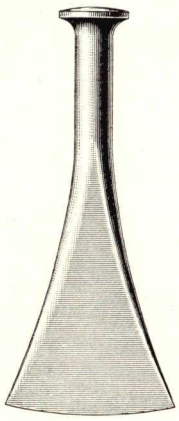

Fig. 60

Wide

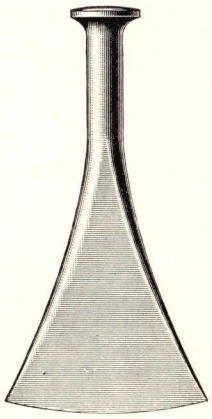

Fig. 61

Crooked or Bent Iron

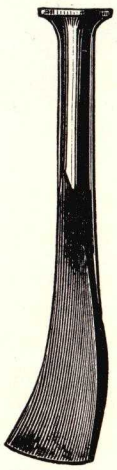

Fig. 62

Spike Iron

Fig. 63

	Per doz.
Calking Irons, No. 0 Crease, Boat, 1-32 to 3-64 thick, 5 to 5 1-2 long	$7.00
" " No. 0 " 1-16 thick	7.00
" " No. 1 " (or making) 1-8 thick	7.00
" " No. 2 " " 3-16 "	7.00
" " No. 3 " " 1-4 "	7.50
" " No. 3 " " 5-16 "	8.00
Crooked or Bent Irons. Single Crook, 0 Crease	8.50
" " " " " 1 "	8.50
" " " Double " 0 "	9.00
" " " " " 1 "	9.00
Spike Irons	7.00
Bent Spike Irons	8.00

An extra price will be charged for Nos. 0, 1, 2 and 3 Calking Irons longer than 7 inches or wider than 2 5-8 inches, and for bent or double bent Irons longer than 7 1-4 inches.

The term "Crease," as applied to Calking Irons, is intended to designate the thickness. Thus "0 Crease" is understood to mean 1-16 inch of thickness; "1 Crease," 1-8 inch; "2 Crease," 3-16 inch, and "3 Crease," 1-4 inch.

In manufacturing the so-called "2" and "3" Crease Irons we usually put in but *one* Crease, varying in width according to the thickness of the tool. We do this because the large majority of our customers prefer them so rather than with *two or three fine Creases*, but will furnish the Irons with two or three fine Creases whenever requested.

We are prepared to furnish to order, at short notice, special patterns of Calking Tools, of any desired length, width, thickness or quality.

We have made these goods a specialty ever since our business was established.
